

Citrus Juicer Instruction Manual

Model: CJ5A

Please read this instruction manual carefully before operating this equipment

1.Safety Tips

Read this instruction manual before using and keep them available at all times!

- The device is not intended for use by individuals (including children) with physical or mental disabilities, insufficient experience, and/or insufficient knowledge unless such persons are under the care of a person responsible for their safety or have received instructions regarding appropriate use of the device.
- Children should be observed to ensure that they are not playing with the device.
- Preserve this manual safely. When passing on/selling the device to a third party, the manuals must be handed over along with the device.
- Every person using the device must act in accordance to the manuals and under consideration of the safety advice.
- The device is to be used indoors only.

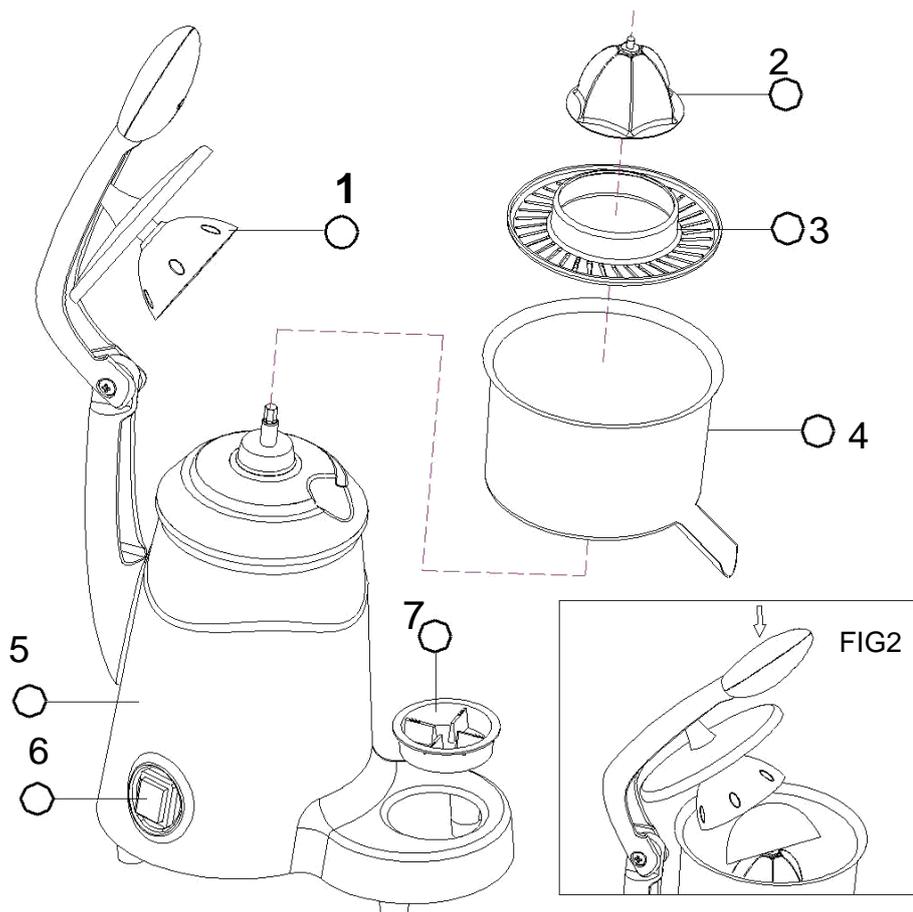

Safe operation is only guaranteed when using the device for its intended purpose. Any technical interventions, as well as assembly and maintenance are to be made by a qualified customer service only. Citrus press is intended only for production of fruit juice.

2. Technical data

2.1 Technical specification

Description:	Citrus Juicer
Item no.:	CJ5A
Voltage:	220-240 V/50 Hz
Dimensions:	W 335 x D 202 x H 475 mm
Weight:	. kg

2.2 Overview of parts

- ① Lid with press point ② Cone ③ Pip Filter
④ Bowl ⑤ Motor Base ⑥ On/Off switch ⑦ Drip rack

3. Operation

3.1 Before Use

- Before the first usage one shall wash all the disassembled parts of the appliance (a sieve, a container for juice, a pressing cone) in warm water with the use of delicate cleaning agent. Then the parts shall be rinsed with pure water and left in the air to dry.
- Put the container for juice on the engine block and then put the sieve into the container.
- Place the relevant pressing cone on the engine drive. The biggest cone shall be used for pressing big oranges and grapefruits, the medium size cone shall be used for oranges and the smallest cone shall be used for lemons and limes.

3.2 CAUTION

1. Never immerse the motor base in water, clean it with a damp cloth.
2. Unplug from the power supply when not in use, before putting on or tarts, and before cleaning.
3. Close supervision is necessary when any appliance is used by or near children.
4. Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions, or is dropped or damaged in any manner. Return the appliance to the nearest authorized service facility for examination, repair, or electrical or mechanical adjustment.
5. Do not let cord hang over edge of table or worktop, or touch hot surface.
6. Don't use the appliance if the rotaing sieve is damaged.
7. Switch off the appliance before changing accessories or approaching parts which move in use.

3.3 How to operate

1. Put a glass under the spout.
2. Switch on the appliance by putting the on/off switch to "1".
3. Cut the fruit to be squeezed into two halves. Place one half of the fruit on the middle of the cone . Holding the handgrip down. The cone will rotate. Exert even pressure until juice stops coming out of the fruit.(see fig.2)
3. Switch off the appliance by putting the on/off switch to "0" .

4. Don't press too hard. If you hear that the motor is rotating more slowly or that it stops, you are pressing too hard. The motor will not become damaged because the thermal protective device turns the motor off if overstrained. If this occurs, we advise you to turn the juicer off with the switch. After a few minutes, the motor will cool off and the Princess Juicer can be used again. Always switch the juicer off after use.

4. Cleaning and maintenance

4.1 Cleaning

1. Always switch off the motor and unplug the juicer.
2. Never immerse the motor base in water, wipe with a damp cloth to clean it.
3. The appliance is very easy to clean by quick removed of all parts in contact with the juice: cone, pip filter, bowl etc. Easy to clean removeable drip tray.
4. Rinse all parts coming into contact with the juice immediately after use immediately after use.
5. Take care to wash all parts in contact with the juice before using the appliance for the first time.

4.2 Safety instructions for maintenance

- Check the mains connection cable for damage from time to time. Never operate the device when the cable is damaged. A damaged cable must immediately be replaced by customer service or a qualified electrician to avoid dangers.
- In case of damage or malfunction, please contact your stockist or our customer service centre.
- Only a qualified technician and using original spare parts and accessories should carry out repairs and maintenance of the device. Do not attempt to repair the device yourself.

5. Waste disposal

Discarding old devices

At the end of its service life the discarded device has to be disposed in accordance with the national regulations. It is advisable to contact a company which is specialized in waste disposal, or just contact the local disposal service in your community.

WARNING!

To exclude any abuse and the dangers involved make the waste device unfit for use before disposal. For that purpose disconnect device from mains supply and remove mains connection cable from the device.

CAUTION!

For the disposal of the device please consider and act according to the national and local rules and regulations.

6.Warranty

iMetto warrants to the original purchaser of every new product, under normal and proper use and maintenance service as specified by iMetto and upon proper installation and start-up in accordance with the instruction packet supplied with each unit. iMetto's obligation under this warranty is limited to a period of two (2) year from the date of original installation.

WARRANTY CLAIMS

All claims for parts must be made directly through iMetto. All claims should include:

Personal Details:

Your name:

Your company:

Address:

Email:

Phone:

Products Details:

Model number:

Serial number of the product:

Date of purchase:

Proof of purchase :

Pertinent information supporting the existence of the alleged defect.(Such as picture etc.)

Please send the above information to services@imettos.co.uk

Our warranty departments will according to the actual situation and reply you within 24hours.
