

iMettos® Drink Mixer Machine
Instruction Manual

DM-B

DM-B-20

Model: DM-B/DM-B-20

Please read this instruction manual carefully before operating this equipment

Safety Tips

Read this instruction manual before using and keep them available at all times!

1.Important Safeguards

1. Read the instructions carefully.
2. To protect against risk of electrical shock, do not put the appliance in water or other liquid.
3. Adult supervision is quite necessary when the appliance is used by or near Children.
4. Unplug the power cord from the wall outlet when the appliance is not in use, before putting on or taking off parts, and before cleaning other than washing the container.
5. Never touch moving parts.
6. Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions or is dropped or damaged in any manner. Call service at once for possible replacement, test and repair, electrical or mechanical adjustment.
7. Do not use outdoors.
8. Do not let the power cord hang over the edge of a table or counter, or get in contact with hot surfaces.
9. Keep hands and utensils out of the container during operation to prevent the possibility of severe personal injury and/or damage to the blender. A rubber scraper may be used, but only when the blender is not running
10. Please take off the cup after you make sure the blending blade is stopped entirely.

2.Brief Introduction

- High power industrial motor, special cup for better mixing.
- Easily operated ON/OFF switch.
- High quality durable blades.
- Stainless steel blend cup.

IMPORTANT: Never operate any appliance with a damaged cord or plug or after the appliance malfunctions or is dropped or damaged in any way. Call repair service or Professional at once for possible replacement, testing and repair, electrical or mechanical adjustment.

3.Operation Instruction

> Milk

- 1) Add some materials: water, sugar and pure milk (powder milk).
- 2) Put the blend cup on the bracket of the blender (milk shake machine) after putting all well the materials inside the cup.
- 3) Connect the electric power source, turn on the switch.
- 4) The mix is fine blended after about 5 seconds.

Attention: when putting materials, please have the proper capacity of water.

4.Features

- Strong and durable motor, high rotating speed, safe switch.
- Blending for powdered milk, sugar, pure milk, coffee, etc.
- Suitable for commercial and domestic use.
- Switch: “ I ”“ II ” is on, “0” is off.

5.Attention

- ✓ Never place any metallic materials inside the cup, such as: knives, forks, spoons, etc.
- ✓ Please make sure to power off first before taking out the cup for cleaning in order to prevent danger.
- ✓ Never use this device for cutting something in pieces or blending any solid food insoluble in water.
- ✓ Please make sure the container is safely connected and fixed with the machine first before starting operation.
- ✓ During operation because of the high speed of motor, make sure to hold the top cover with your hand.
- ✓ During operation, please put correct materials in the cup to prevent from overflow while blending.
- ✓ When you would like to pour out the food, please turn off the power source firstly, and take off the cup when the motor is NOT running.
- ✓ Please pay attention all the time not to touch the Switch carelessly before or after the unit's operation.

6.Maintenance

When maintaining or cleaning, please make sure the outlet is unplugged, and the switch is set to the “off” position.

Please clean the cup using a sponge or cloth carefully, and take it for airing.

Please clean the motor base and bearing by dry cloth (NEVER use water). In case you have to wipe please do it after cleaning by using a neutral lotion.

7.Applicable materials

- a. Materials soluble in water.
- b. Some soft and small legume

8.Trouble-shooting

When the unit is non-operational please check:

1. Whether the outlet is unplugged?
2. Whether the fuse or automatic switch is dropped off?
3. Whether the unit is powered off?

If the unit is still non operational, please contact a service center and do not attempt to repair by yourself.

9.Specification

DM-B

Voltage	220-240V
Endurance of Container	-40°C-180°C
Power	400W
Weight	3.63kg
Length of Cord	1.5m
Dimension	H497×W230×D200mm
Protector	Safety protector

DM-B-2

Voltage	220-240V
Endurance of Container	-40°C-180°C
Power	800W
Weight	7.26kg
Length of Cord	1.5m
Dimension	H472×W188×D332mm
Protector	Safety protector

10.Waste disposal

Discarding old devices

At the end of its service life the discarded device has to be disposed in accordance with the national regulations. It is advisable to contact a company which is specialized in waste disposal, or just contact the local disposal service in your community.

WARNING!

To exclude any abuse and the dangers involved make the waste device unfit for use before disposal. For that purpose disconnect device from mains supply and remove mains connection cable from the device.

CAUTION!

For the disposal of the device please consider and act according to the national and local rules and regulations.

11.Warranty

iMettos warrants to the original purchaser of every new product, under normal and proper use and maintenance service as specified by iMettos and upon proper installation and start-up in accordance with the instruction packet supplied with each unit. iMettos' obligation under this warranty is limited to a period of two (2) year from the date of original installation.

WARRANTY CLAIMS

All claims for parts must be made directly through iMettos. All claims should include:

Personal Details:

Your name:

Your company:

Address:

Email:

Phone:

Products Details:

Model number:

Serial number of the product:

Date of purchase:

Proof of purchase :

Pertinent information supporting the existence of the alleged defect.(Such as picture etc.)

Please send the above information to services@imettos.co.uk

Our warranty departments will according to the actual situation and reply you within 24hours.
